

## Bill Sloma, Sr. Consultant, BlueSkye Track Inc.

---

### Background

Services / Knowledge Matrix:

|                                    |                   |
|------------------------------------|-------------------|
| ISO 9001 Quality Management        | R2/RIOS Recycling |
| ISO 14001 Environmental Management | AS 9100 Aerospace |
| ISO 50001 Energy Management        | Lean Six Sigma    |

Bill was with IBM for over 30 years and consults for companies ranging from mid-level to fortune 500 in the information technology and manufacturing markets. He has held management positions in product assembly and test, test engineering, manufacturing equipment development, product development, quality assurance management, product management, business development and product marketing.

He has developed assembly and test equipment for manufacturing lines, developed product test processes and procedures, managed product assurance functions for complex electronic assemblies, and trouble shooting for manufacturing problems to improve reliability and eliminate defects. He has done manufacturing process analysis to streamline operations to reduce cost and improve quality metrics. Products ranged from mechanical printer assemblies, printed circuit boards, semiconductor manufacturing.

His experience includes product development, product lifecycle management, market analysis, product roadmaps, product sourcing, competitive analysis, business development, contract management, quality assurance and manufacturing engineering. This includes design and set-up of manufacturing lines in worldwide locations.

His work at BlueSkye Track is to serve clients nationally and internationally on consulting and training assignments for:

- supplier audits (manufacturers of electronic and machined products: food service equipment, automotive parts, power controllers, cables, harnesses, and a wide variety of machined parts)

- quality management systems (ISO 9001, AS 9100, ISO 50001, ISO 14001 and R2) implementation and training.
- lean & lean six sigma (process improvement)

Bill has held several leadership positions at IBM in the semiconductor division, printed circuit board manufacturing, card assembly and test, microprocessor development, printer manufacturing and optoelectronic development and manufacturing.

Bill currently teaches Lean Six Sigma to industry and students; he is an adjunct instructor in the Dartmouth College Lean Six Sigma program.

### **Education**

- **BS Electrical Engineering**, Cornell University
- **MS Electrical Engineering**, Syracuse University
- **MBA**, SUNY Binghamton
- **ISO 9001 – 5 days classroom and hands-on internal auditor workshop provided by BlueSkye Track**
- **SQF 2000 – 3 day workshop provided by SGS with certificate**
- **ISO 50001 – 1 day workshop provided by Dekra with certificate**
- **AS 9100 – 6 days implementation and internal auditing hands-on workshop provided by BlueSkye Track**
- **ASQ: Quality Auditor Certification: June 2013**
- **Lean Six Sigma Black Belt, Villanova University**
